*Consume after meal

Olive Fruit Extract (from Spain)

High concentration of olive polyphenols obtained using eco-friendly technologies, based on a patented ultrapure water extraction process without organic solvents (EP2049458B1; US8236993; CN101631758B).

Olive polyphenols, especially Hydroxytyrosol is among the most powerful antioxidant found in nature. It promotes the expression of endogenous antioxidant enzymes, thus enhancing the body's own defense systems against oxidative stress.

Offers significant health benefits equivalent to consuming a large of fresh olives of extra virgin olive oil minus the calories and fats.

Morinaga® *Bifidobacterium breve* M-16V (from Japan)

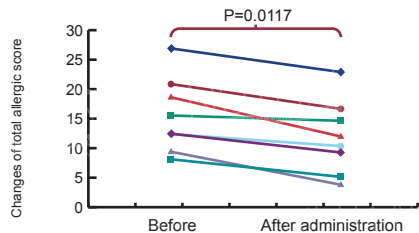

Bifidobacterium naturally inhabits the human gastrointestinal tract and its health benefits have been well-studied over the years.

Morinaga® *Bifidobacterium breve* M-16V, supported by over 40 scientific studies, is a clinically effective, well-established probiotic strain that exerts beneficial effects on infant health.

Bifidobacterium breve M-16V has been shown to:

- Maintain intestinal microflora balance
- Modulate the immune response through acting on T-helper cells, immunoglobulin E and galectin-9
- Support skin health/anti-allergy
- Protect against microbial infections

Effect of M-16V administration on allergic symptoms in infants with allergy and atopic dermatitis (n=8)
